Message from the Director, Ms. Traci Cormier

Today students in grades 1-12 were provided a grade summary report which outlines a snapshot as to how your child is performing at this point in Term 2. On Friday, May 25th, Interim Reports will be mailed home for all students in grades 1-11. Please make sure you ask your child to see a copy of their grade summary report so you have an idea as to how your child is doing in his or her classes.

Welcome - CRIM Community School Director, Jonique Donald

Ms. Jonique Donald, is our new Community School Director that will be part of the CRIM and IAF partnership. She officially began at IAF on Monday, May 7. Her email address is jdonald@iaf-sabis.net. Soon, there will be some parent gatherings for Ms. Donald to learn more about our families and their needs. Please be on the lookout for this.

**Summer School begins on Monday,
July 9th and the last day will be
Thursday, August 9th**

YOUR OPINION COUNTS!

Each year, SABIS® releases a parent survey to request feedback on the points you like the best about your student's school and the points where you think we could improve upon. We released an online version back in March but we did not receive the responses we were hoping for. We are going to mail home a copy of the survey to every family on Thursday, May 16th. Please be on the lookout for this.

Please share your feedback with us and complete the survey and mail back in the prepaid envelope to SABIS®. All feedback is requested before Friday, June 1st.

Message from Student Life Coordinator™, Ms. Angela Nichols

International Academy of Flint had the opportunity of hosting Michigan's District General Attorney, Bill Schuette along with the District Attorney of Florida, the Michigan State Police Department, Tracy Palmer with her Try to Bully Me Team, and ABC-12 to introduce the OK2SAY initiative. "OK2SAY is a program that helps students confidentially report anything that threatens their safety or the safety of others. OK2SAY features confidential reporting, comprehensive technology, coordinated intervention, and complete disposition." This is a great program for our students to reach out, in an effort to prevent bullying in our school and community. More information is available in the high school office.

Stop the Silence. Help End the Violence.
